PRIVATE COMMISSION

URN

by Sensay

The record of how you decided, in your own words, kept for those who follow.

2027 · SIX FOUNDING COMMISSIONS

An estate passes on what you own. Nothing passes on how you decided.

Fewer than one family in four has written down its roles, its rules or how it talks about wealth.

UBS Global Next Generation Report, 2026

WHAT IT IS

A memoir your family can question.

> Recorded over months, in your own words, with a senior biographer.

> Sealed in a one-of-one titanium vessel that lives in your home and needs no internet.

> Answers in your voice, only from what you recorded. Beyond that, it says so.

DESIGN STUDY

THE BIOGRAPHER

One biographer. One family. Six to nine months.

Your biographer comes to you, at your homes, and listens for the reasoning behind your decisions: what you weighed, what you feared, what you would do again.

Between visits, guided sessions continue at your pace. Nothing is kept until you approve it.

THE COMMISSION

From first conversation to sealing.

I

Introduction

Through your lawyer, banker, family office or residence.

II

Conversation

At your home, about your life. Your spouse is welcome.

III

Family session

Who the record is for, and what stays sealed.

IV

Proof sitting

One day with your biographer, to hear the first pages.

V

Capture

Six to nine months of visits and guided sessions.

VI

Making

Your vessel, made once, its finish and engraving chosen by you.

VII

Sealing

A private ceremony, with your family present.

DESIGN STUDY, EXPLODED

THE VESSEL

Made once. Built to stay.

MATERIAL	Grade 5 titanium
SCALE	About 25 cm at the base, about 4 kg
VOICE	It listens and answers aloud. No screen, no app.
PRIVACY	Runs entirely offline, on no one else's servers.
RENEWAL	Its workings can be renewed every 10 to 15 years. The vessel stays.

POLISHED CHAMPAGNE BRUSHED OBSIDIAN

Four finishes. Each made once.

FINISH STUDIES

SIGNATURE DETAIL

An inlaid moonstone tree, unique to each vessel.

CONTINUITY

Built to outlast its makers, including us.

Keys in escrow

Held by an independent trust company, never by Sensay.

The family’s own copy

Your record in open formats, readable without the vessel.

Renewal, prepaid

A reserve set aside from every commission pays for each renewal.

A named successor

Licensed to continue the service if Sensay cannot.

STEWARDSHIP

While you live, the record keeps growing.

Every year

Two visits from your biographer, for new decisions, second thoughts and the stories that surface late. Then a family gathering to hear what has been added.

Afterwards

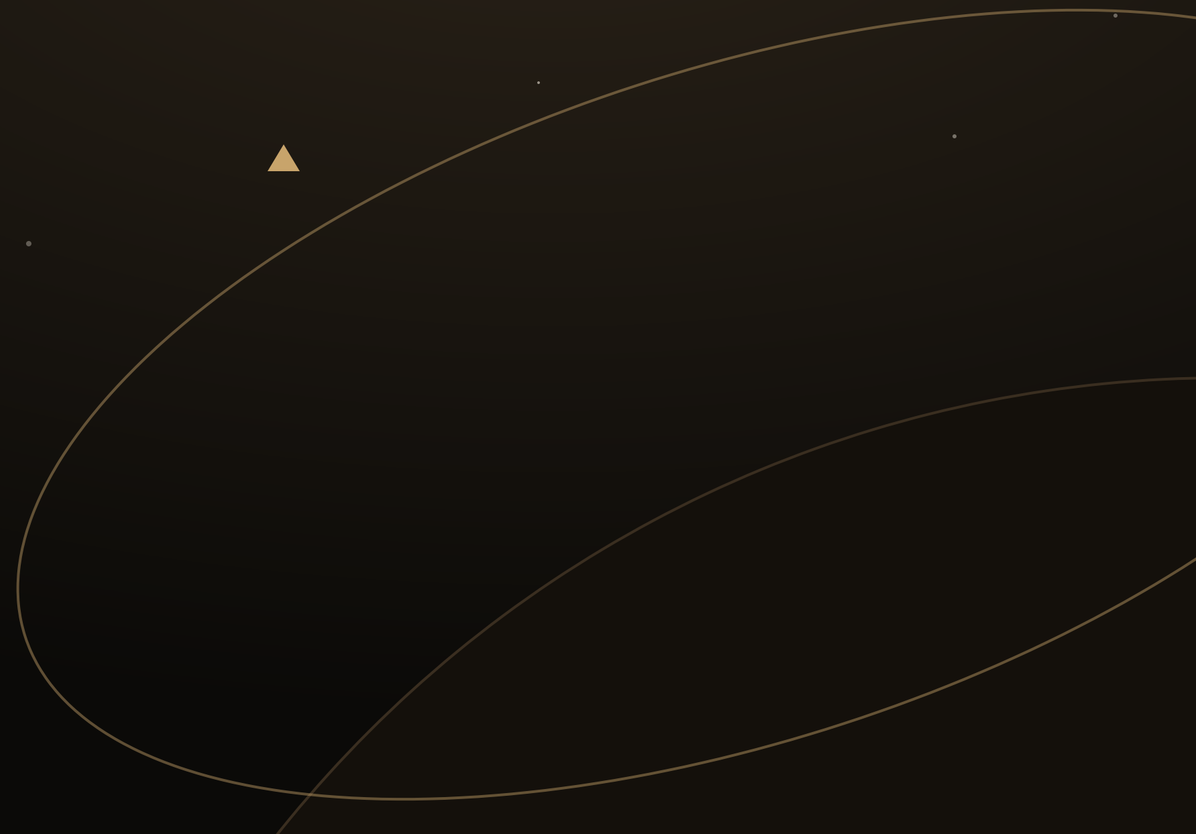

The vessel is sealed and held quietly: keys in escrow, a yearly check, and renewal when it falls due.

IN DEVELOPMENT · TARGETED FOR 2030

A copy beyond the earth.

A short excerpt of your record, chosen by your family, etched onto a durable plate aboard a small solar-powered satellite, with a primer in a thousand languages, so that whoever finds it, however far ahead, can read it.

Only what your family approves leaves the house. Founding families will be invited first.

2027 · FOUNDING COMMISSIONS

Six places.

Capture is slow and senior biographers are few, so 2027 holds six founding commissions. Places are held in the order deposits are received. Once they are taken, new families join the waiting list for 2028.

HOW TO BEGIN

Begin with a private conversation.

Through the person who introduced you, or directly with Dan Thomson, Founder.
